## TE Connectivity

**Product Change Notification:** PCN-24-210586

**PCN Date:** 05-JUN-24

**Customer:** TTI Inc ( 1305175 )

**Location:** Maisach-gernlinden

**Agreement:** Agreement Unknown

TE would like to inform you of the following change(s) to the listed TE Connectivity Product. In case of any further questions about this change(s), please contact your TE Connectivity Sales Engineer. Affected part, drawing and/or specification numbers are listed on the attached sheet(s).

**Product Description: (Text limited to 120 characters)**

DEUTSCH Size 20 SF Pin

**General Description of Changes**

The Industrial and Commercial Transportation (ICT) business unit of TE Connectivity has approved a new copper alloy base material for the part number(s) listed below. These PNs are TE proprietary designs, therefore considered catalog/general market product. PPAP and/or sample requests must be submitted within 14 days of PCN submission via ict-ppap-request@te.com or ePPAP system. Submission will not occur without request. If PPAP requested, disposition response is required within 14 days of submit date or it will be considered approved. Product drawings are affected.

**Reason for Changes:**

Dear Customer, this change will align with other ICT male pin terminals made out of same base material. This change will commonize our global supply chain and alleviate future global supply chain constraints. Product performance and crimping not affected. No visual change. IMPORTANT: The current and previous revisions of these parts can be used interchangeably in the field. The change is being phased in gradually and previous revision can remain stocked until use. Both versions may be mixed.
